

AARYA SHIKHARE

Motivated third-year Electronics and Telecommunication Engineering student with skills in SQL, Java, and data handling tools like Excel and Google Sheets. Certified in Core Java and SQL, with exposure to Generative AI and Android development. Strong in problem-solving, teamwork, and leadership, and eager to apply technical skills in a dynamic work environment.

Projects

India Space Lab

- Open VSP Cessena Drone building
- Implemented in-depth Rocket Building workflow (Open Rocket)
- Simulating the workflows through Rocket Simulation Software's

Heart Pulse Calculation Sensor

- Used Aurdino and Raspberry Pii Technologies
- Implemented the Coding for Chip embedding in the Hardware system
- Hardware integration with complete workflow

IV Drip Monitoring System

- Designed and developed an **IV drip monitoring system** to track fluid levels in real-time and alert medical staff to prevent empty drips and backflow risks.
- Implemented **sensor-based monitoring with automated alerts** (buzzer/notification) to ensure timely intervention and improve patient safety.
- Built and tested the system using embedded components, focusing on **accuracy, reliability, and low-cost healthcare solutions**.
